Project Information

The new Spartanburg County Courthouse will be located in downtown Spartanburg on the same block as the current courthouse (built in 1956) and on the same site as the original courthouse which was built in 1892. The new state-of-the-art Spartanburg County Courthouse will feature more than 300,000-square feet and will include a Jury Assembly Room, courtrooms, Clerk of Court, and Jury Deliberation Rooms, and Sheriff's Holding Area. Once the new facility is operational, the current courthouse will be demolished, and a large, landscaped plaza will serve as a "Courthouse Square".
